PREMIUM TOOLS FOR THE DEMANDING BARTENDER

The craft cocktail has made its comeback. To honor their revival, Barprofessional presents The Premium Speakeasy Collection, a series of high-quality cocktail tools. Superior materials, timeless designs, and sleek functionality evoke the Roaring 20s. Referencing the illegal “speakeasy” bars of the Prohibition Era in the USA and the emergence of classic cocktail recipes during that era, these tools are designed for bartenders with the highest standards.

Crafting perfection with every stamp

The disc stirrer is essentially a stirrer or muddler designed to lightly ‘stamp’ or press garnishes, such as citrus slices, herbs, or berries, into your drink. The goal of using a disc stirrer is to gently release the flavours and aromas of these garnishes into the drink without overly crushing or damaging them, ensuring a balanced infusion.

If glass is **compatible** with the dishwasher, use a glass program.

Do not turn the base and the parison in the opposite direction.

For **more shine**, wipe the glass with a micro-fiber cloth.

Impregnate a cloth with a few **drops of white vinegar** to restore the natural shine of the glass.

We recommend **manual washing in hot water**, without detergent.

ESSENTIA WHAT BETTER GARNISH THAN AN EMOTION?

The Essentia Food & Cocktail Finish introduces a sensory revolution that transcends taste, tapping directly into the limbic system, the epicenter of human emotion and memory. This part of the brain, encompassing structures like the hippocampus and amygdala, processes olfactory signals to evoke powerful emotional responses and anchor vivid memories.

Through the delicate interplay of aromas and flavours, the Essentia Finish creates an unforgettable cocktail experience. Each spray infuses drinks with exquisite notes of citrus, herbs, or spices, crafting a moment where emotion meets flavour. By stimulating the limbic system, this innovation transforms ordinary garnishes into emotional journeys, ensuring your cocktail isn't just consumed but cherished as an experience that lingers in the mind.

Aroma, as Essentia demonstrates, is more than a scent, it's the gateway to mood, memory, and the art of flavour itself.
